

June 18, 2024

The Grant County Commission met at 8 AM with Commissioners Buttke, Mach, Stengel, Street and Tostenson present. Chairman Tostenson called the meeting to order. Motion by Stengel and seconded by Buttke to approve the June 6th, 2024 minutes with the change of Commissioner Street’s word of “forces” to “encourage landowners to work together” in the drainage section. Motion carried 5-0. Minutes filed. Commissioner Assistant Layher requested to add an additional claim from Ingram for \$895.46 for books. Motion by Mach and seconded by Street to approve the agenda with the additional claim included. Motion carried 5-0.

Present from the public were Brian Schneck, Ben Wollschlager, Adam Pauli, Bob Pauli, Adam Hunt, Austin Hunt, Colleen Quade, Monte Quade, Bradley Buttke, Keith Christians, Neil Pauli, Marty Broadas, Kyle Werning, Chuck Brandel, Corey Johnson, Adam Kuehl, Tom Grimmond, Roger Risty, Dan Johnson, and Sonja Nordbye. Staff members present were Commissioner Assistant Layher, Drainage Officer Berkner, Sheriff Owen, and States Attorney Schwandt.

Public Comment: Chairman Tostenson called three times for public comment. There were no public comments.

The Auditor’s Account with the Treasurer for May was noted.

AUDITOR'S ACCOUNT WITH THE COUNTY TREASURER

To the Honorable Board of County Commissioners,
Grant County:

I hereby submit the following report of my examination of the cash and cash items in the hands of the County Treasurer of the County of Grant as of the last day of May, 2024.

Cash on Hand	\$2,262.55
Checks in Treasurer's possession less than 3 days	\$319,203.78
Cash Items	\$0.00
TOTAL CASH ASSETS ON HAND	\$321,466.33

RECONCILED CHECKING

First Bank & Trust	\$51,048.29
Interest	\$0.00
Credit Card Transactions	\$4,560.12
First Bank & Trust (Svg)	\$11,623,911.00

CERTIFICATES OF DEPOSIT

First Bank & Trust	\$0.00
First Bank & Trust (TIF)	\$0.00

TOTAL CASH ASSETS **\$12,000,985.74**

GENERAL LEDGER CASH BALANCES:

General	\$5,103,011.13
General restricted cash	\$3,093,000.00
Cash Accounts for Offices General Fund	\$656.00
Sp. Revenue	\$1,635,540.46
Sp. Revenue restricted cash	\$0.00
Ambulance District	\$10,120.28
Henze Road District	\$1,402.60
TIF Milbank	\$0.00
TIF Rosewood Mil-3	\$33,485.00
TIF Koch	\$69,628.04
Special Assessment Land Rent	\$0.00
Trust & Agency (schools 753,819.95 twps 65,898.90, city/towns 113,288.97)	\$2,054,142.23
ACH Correction	\$0.00

TOTAL GENERAL LEDGER CASH **\$12,000,985.74**

Dated this 12th day of June, 2024

Kathy Folk
County Auditor

The Register of Deeds fees for the month of May were \$13,466.50. The Clerk of Courts fees for the month of May were \$11,666.36. The Sheriff fees for the month of May were \$5,021.83 with \$3,171.83 received into the General Fund. Statistics for the month of May 2024 for the Sheriff's office were presented by report. Average Daily inmate population 4.45; Number of bookings 17; Work release money collected \$1,000.00; 24/7 Preliminary Breath Test (PBT) fees collected \$180.00; SCRAM (alcohol detecting bracelet) fees collected \$806.00; 24/7 PBT participants 2; SCRAM (Sobriety Program) participants 5; UA participants 4; Calls for Service (does not include walk-in traffic) 350; Accidents investigated 4; Civil papers served 65; Cumulative miles traveled 17,559; 911 calls responded to (including Milbank) 92.

Drainage: Chairman Tostenson adjourned the Board of Commissioners and convened the Commission acting as the Drainage Board.

Permit DR2024-23 for Brian Schneck for property located within the W1/2SW1/4 of Section 34 of Grant Center Township.

Chairman Tostenson called for a motion to approve drainage permit DR2024-23 for Brian Schneck. Motion by Stengel and seconded by Buttke to approve permit DR2024-23.

Drainage Officer Berkner reported permit DR2024-23 is for tiling approximately 60 acres of land located within the W1/2SW1/4 of Section 34 in Grant Center Township. The project would connect into an outletting main from previously permitted DR2019-29 project. The drainage permit area is within the North Fork of the Yellow Bank River Watershed and would have no inlets and only use one 10" outletting main that would contribute a maximum water flow rate of .95 cfs, or 425 gpm, to the existing main it is connecting to.

It is Berkner's opinion that the project is supported by questions asked in Section 101, 313 and 317 of the county's drainage ordinance.

Chairman Tostenson asked Schneck if he had anything to add. Schneck said the final outlet size of the main tile he would be connecting to is a 15" tile and said the presentation was accurate.

Chairman Tostenson opened the public hearing for DR2024-23 asking three times for comments in favor or against the drainage project. No one responded. Tostenson closed the public hearing, inviting drainage board discussion.

Commissioner Street said he thought it was a straight-forward project. With no more discussion Chairman Tostenson called for the vote. Motion carried 5-0.

Permits DR2024-24a for Adam Hunt for property located within the NE1/4 of Section 25 in Twin Brooks Township, and permit DR2024-24b for Brian Schneck for property located within the N1/2NW1/4 of Section 30 in Grant Center Township.

Chairman Tostenson called for a motion to approve permits DR2024-24a for Adam Hunt and related permit DR2024-24b for Brian Schneck. Motion by Street and seconded by Buttke to approve permits DR2024-24a and DR2024-24b.

Berkner reported permits DR2024-24a and DR2024-24b are a joint design between Hunt and Schneck. DR2024-24a is an amendment to drainage permit DR2023-17, which was permitted last year. Hunt is seeking to change his outlet design for

draining approximately 12 acres located within the NE1/4 of Section 25 in Twin Brooks Township. Berkner said Hunt's amended request is to bore under 472nd Avenue and install approximately 1,000 feet of a 6" main that would empty directly into a north flowing creek.

Berkner stated permit DR2024-24b for Schneck is seeking to drain around 1 to 2 acres of farmland in the N1/2NW1/4 of Section 30 in Grant Center Township, directly across the road from Hunt's land. It would connect to the same 6" main tile of DR2024-24a. Berkner said the combined estimated 14 acres within the permitted area are all within the South Fork of the Whetstone River Watershed and the location receiving the water is often at risk to flooding as the creek crosses through 152nd Street into the SW1/4 of Section 19 of Twin Brooks Township. The maximum flow capacity of the two combined drainage permits, using the same 6" outlet, would have a maximum design flow of .25 cfs or 113 gpm if installed at a .1% grade. According to Berkner that would be just slightly more than the same quantity being drained with permit DR2023-17 that is being amended by Hunt. Berkner said the new design would greatly reduce erosion by using the 6" underground main instead of an open ditch.

Berkner then drew attention to the next joint drainage permit to be considered, DR2024-25a thru DR2024-25d, that its design, if permitted and once completed, might be another possible route for the water to exit as it is in the same watershed. It would be hard for the Drainage Board to condition that route, but it would reduce water contributing to flooding on 152nd Street.

Berkner said he had met with a downstream landowner who had strong concerns about the additional water related to DR2024-24b. Berkner showed a video and pictures, provided by the concerned landowner that showed recent flooding near their farm adjacent to 152nd Street and just north of the planned outlet for DR2024-24a and DR2024-24b. Berkner also showed recent photos of heavy erosion of a grassy waterway as it crossed onto and over Hunt's property that is seeking the amended drainage permit which is about a half mile upstream from the area that is flooded in the images. Berkner said the condition of the freshly eroded waterway in the pictures is also a major concern of the downstream landowners who are flooded often. They would like to see the waterway's erosion repaired and re-seeded as a possible condition to the joint permits.

It is Berkner's opinion that the project is supported by questions asked in Section 101, 313 and 317 of the county's drainage ordinance. Berkner recommended the

Drainage Board should consider the concerns of the immediate downstream landowner.

Chairman Tostenson asked both Hunt and Schneck if they had anything to add concerning their joint drainage permit applications. Hunt said his amendment to DR2023-17 is due to difficulty with working with existing grade and once the new route was selected Schneck expressed interest in connecting his additional 2-acres of drainage to the same main.

Chairman Tostenson opened the public hearing portion for DR2024-24a and DR2024-24b asking three separate times for comments in favor or against the permits. Colleen Quade was the only person to respond saying that their land, located directly adjacent and north of 152nd Street that was shown flooding in the video and pictures, was their land and any additional water being added to the creek upstream of them would have a negative effect on their property.

Quade also said they have very strong concerns the erosion of the grassy waterway shown in the photos is also a major contributor to their flooding as there is no grass or natural barriers to slow runoff water down before it reached the creek that floods across 152nd Street and their property. Quade also said their property and the roadway always seemed to flood a little over the years, but the occurrence of flooding is now more often, and those floodwater crests are getting higher.

Hunt asked to reply to Quade's concerns. He said improving the grass waterway is a shared project with NRCS and that it began a couple of years ago. Due to recent heavy runoff events Hunt has tried to fix the erosion and re-seeded it several times already.

Chairman Tostenson asked Hunt if they intended to repair it again. Hunt said since it is partially funded by NRCS that he is required to see that it returns to a mature grassy waterway.

Chairman Tostenson then closed the public hearing inviting Drainage Board discussion. It was agreed upon it was important the grassy waterway should be restored, but since it is a joint project between NRCS and the landowner, the NRCS's standards would be accepted as a solution to that particular concern of Quade's.

It was also discussed that the outletting route in the amendment is following nearly the same route to the creek as the previously permitted outletting design and the

additional 2 acres being added is insignificant as it has no open inlets. With no more discussion, Chairman Tostenson called for the vote. Motion carried 5-0.

Permits DR2024-25a, DR2024-25b, DR2024-25c and DR2024-25d for Adam Pauli for properties located within Section 24 in Twin Brooks Township.

Chairman Tostenson called for a motion to approve DR2024-25a, DR2024-25b, DR2024-25c and DR2024-25d for Adam Pauli. Motion by Stengel and seconded by Street to approve DR2024-25a, DR2024-25b, DR2024-25c and DR2024-25d for Adam Pauli.

Berkner reported the drainage projects are for tiling approximately 380 acres of land in two phases located within Section 24 in Twin Brooks Township within the South Fork of the Whetstone River Watershed. A majority of the current project was previously permitted in 2014, DR2014-28, but that project was never started.

Berkner said phase one of the project is for 105 acres and would have 2 inlets and 5 outlets with a combined maximum flow of 2.21 cfs or 992 gpm if installed at a .1% grade. Phase two is for 275 acres and would have 3 inlets and one 18" outlet and would flow 2.88 cfs or 1,293 gpm if installed at a .1% grade. A map from the tiling contractor was presented that showed detailed areas to be tiled and all five inlets for the two phases are located near road culverts to catch water entering the section and reduce erosion. Berkner stated it is his opinion that the project is supported by questions asked in Section 101, 313 and 317 of the county's drainage ordinance.

Chairman Tostenson asked Adam Pauli if he would like to make any additional comments. Pauli said they had a signed easement from the landowner receiving the 18" outlet. It was agreed the water would enter the creek at 90 degrees to avoid any creek bank erosion problems. Pauli also said they too are in the process of re-seeding the same grass waterway discussed during the previous permit, DR2024-24a and DR2024-24b that is upstream and directly across the road. When completed it would slow the water down even more. Pauli added the completion of their phase two design would also greatly reduce the amount of water flowing through that same waterway and it would route it directly downstream of the area of Quade's flooding concern.

Chairman Tostenson opened the public hearing for DR2024-25a, DR2024 -25b, DR2024-25c and DR2024-25d and asked three times for comments in favor or against the projects. No one responded. Chairman Tostenson closed the public hearing and invited drainage board discussion. The consensus was that the inlets,

lateral tiling and main outlets are of a sound design. Chairman Tostenson called for the vote. Motion carried 5-0.

Permits DR2024-26a, DR2024-26b and DR2024-26c for Chris Zubke for adjacent properties located within Section 24 in Twin Brooks Township.

Chairman Tostenson called for a motion to approve DR2024-26a, DR2024-26b and DR2024-26c for Chris Zubke. Motion by Mach and seconded by Street to approve DR2024-26a, DR2024-26b and DR2024-26c for Chris Zubke.

Berkner reported the drainage projects are for amending a 30-acre joint tiling project permitted in 2023, DR2023-20, DR2023-21 and DR2023-22, that is located west of 475th Avenue within Section 17 of Mazeppa Township and Section 28 of Lura Township, all within the Big Sioux River Watershed. The original drainage project has 2 outlets, one flowing north and one flowing south. The south outlet also has one inlet. The amended permits are to drain the same exact 30-acre area with 2 outlets draining north. The south outlet would also have an additional inlet for a total of two. The area and quantity of water being drained would be the same as permitted earlier. It could flow at the designed maximum of .61cfs, or 275 gpm if installed at a .1% grade.

Berkner said in late fall of last year after the project was completed, he had been contacted by the landowner directly to the north with concerns of the waterway west of 475th Avenue flowing north receiving more water than before. Berkner said this is drainage water from outletting mains: DR2023-20, DR2023-21, DR2023-22 and DR2022-01. Berkner relayed to the concerned landowner all four drainage permits draining north had been recently approved to drain into a natural waterway. Berkner also stated all two-mile downstream landowners, including the concerned landowner, had all received notification of the drainage projects at the time of their permitting and no one had chosen to make any official statements in favor or against any of the projects during the two public hearings.

Berkner said his records show the property owner making the complaint had requested additional information on DR2023-20, DR2023-21, and DR2023-22, prior to its public hearing. Berkner said he had sent them a tiling map along with other related information that was to be presented at the public hearing for them to review.

Berkner added in a follow-up phone conversation with the concerned party, after they received the requested information, they said they would remain neutral on making comments about DR2023-20, DR2023-21 and DR2023-22. Berkner said

he had no contact from any landowner west of 475th Avenue that had received certified letters on any concerns of DR2022-01 being permitted.

Berkner said after his conversation with the concerned downstream landowner he had a chance to inspect the area. He stated that it is his opinion that most of the water draining into the waterway of concern is from DR2022-01 that drains through a culvert under 475th Avenue. Berkner said he has not had any communication with the concerned landowner since then.

Berkner also drew attention to other land in the area, east of 475th Avenue, where it is not farmed at all and is a hay field. Berkner said the whole natural waterway is also fed by water flowing from large culverts under Interstate 29 which is less than half a mile further east of 475th Avenue. In closing, it is Berkner's opinion that the project supported by questions asked in Section 101, 313 and 317 of the county's drainage ordinance.

Applicant Chris Zubke was not present.

Chairman Tostenson opened the public hearing for the drainage permit amendment asking three times for comments in favor or against. No one responded. Tostenson closed the public hearing inviting discussion between the board.

The drainage board discussion centered around the actual impact of the amendment to Zubke's original request. The board reviewed recent images, aerial pictometry from different years and elevation data. It was a consensus of most of the board that the natural drainage way is prone to being wet during wet cycles and the amendment requests are for the exact same area.

Commissioner Street said he is concerned a better solution could be achieved if all the landowners involved in the area would work together and install appropriate drainage to meet everyone's needs. With no more discussion Chairman Tostenson called for the vote. Motion carried 4-0 with Street abstaining.

This concluded the business for the Drainage Board. Chairman Tostenson adjourned the Drainage Board and reconvened the Board of Commissioners.

HWY: Intersection Study: Hwy Supt Peterson gave an overview of the report from Banner Associates on the intersection of 149th Street and 480th Avenue. Banner gave three different estimates to upgrade/widen the intersection ranging from \$220,100 to \$1,214,560. Banner's report also gave an option to change a few signs, increase the size of signs and improve the corners where erosion has occurred.

Supt Peterson recommended the last option to the Commission. Motion by Street and seconded by Buttke to approve Supt Peterson's suggestion to improve this intersection by changing the signs and improving the eroded corners. Chairman Tostenson called for the vote. Motion carried 5-0.

RAIF Amendment: Grant Center Township board members Keith Christians and Neil Pauli presented a request to amend their RAIF project for 2024. The original estimate was \$70,000 for three 9' culverts. The new estimate is for a box culvert that will last longer for \$133,278. The county's share would be \$26,656. There are still RAIF funds left for 2024. Motion by Mach and seconded by Buttke to approve the additional RAIF funds be allocated to Grant Center Township to install a box culvert. Chairman Tostenson called for the vote. Motion carried 5-0.

Change Order: Commissioner Assistant Layher presented a change order for box culvert project 26-270-237 to decrease the contract price by \$3,075.32 for as built quantities. Motion by Street and seconded by Stengel to approve the change order for box culvert project 26-270-237. Chairman Tostenson called for the vote. Motion carried 5-0.

Corona Culvert: Bradley Buttke reported to the Commission there is a ditch full of gravel at the intersection of 470th Avenue and 142nd Street in Section 4 of Kilborn Township. Hwy Supt Peterson stated the highway department will clean the gravel out of the ditch.

Drainage Presentation: Kyle Werning and Chuck Brandel, of ISG gave a presentation on different types of water resource management options available for drainage projects.

Jail Project: Corey Johnson, Adam Kuehl and Tom Grimmond discussed what the next steps are for the jail building project. The architect will finalize the plans for the building and the land will need to be surveyed. They plan to start building in the spring of 2025 and will take approximately 15 months to finish. Johnson asked the Commission if they wanted Johnson Construction to act as a Construction Management Agent (CMA) or the Construction Management at Risk (CMR). A lengthy discussion was held. Motioned by Mach and seconded by Street to hire Johnson Construction as the Construction Management at Risk for the jail project. Chairman Tostenson called for a roll call vote. Stengel: Aye, Mach: Aye, Street: Aye, Buttke: Aye, Tostenson: Aye. Motion carried 5-0.

Risty Benefits: Roger Risty, Sonja Nordbye and Dan Johnson with Risty Benefits returned to give a follow-up presentation on a benefits proposal for the county employees addressing the cost savings to both the county and employees.

Travel: None

County Assistance: None

Executive Session: None

Post Election Audit: Auditor Folk presented the results of the Post Election Audit for the June 4, 2024 primary election. The U.S. Presidential and State Senator District 04 races in precincts 49 – Mazeppa, Osceola, Marvin Town and 41- Adams, Albee, Revillo, Vernon were audited by a three-person board. After manually counting the races, the results of both races matched the election night tabulator count and county canvass with 100% accuracy.

4-H Complex Improvements: Commissioner Assistant Layher reported a floor scrubber was ordered and the 4-H Leaders will contribute \$5,000 to help pay for it. Gravel was added to the parking lot. The new digital sign will be installed this week. The bleachers by the horse arena will be getting repaired.

County Facebook Page: Moved to the next meeting agenda.

Unfinished Business: None

New Business: Commissioner Assistant Layher stated the Roberts County jail has increased their rates for housing inmates and Grant County will need to sign a new contract to house any inmates there. Adult rate is \$115 per day and juvenile is \$315 per day. Motion by Stengel and seconded by Mach to approve the contract with Roberts County jail. Chairman Tostenson called for the vote. Motion carried 5-0.

Auditor Folk stated the State Senator District 4 race with Fred Deutsch and Stephanie Sauder will have a recount of the ballots on Monday, June 24, at 2:00 PM in the Commission Chambers.

Correspondence: Auditor Folk received a petition request for a recount from Vanessa Namken for the State Legislator District 4 race. Namken's request was denied because her vote margin exceeded 2%.

Claims: Motion by Mach and seconded by Stengel to approve the claims with the addition of Ingram for books for \$895.46. Motion carried 5-0. A-OX WELDING, supplies 77.69; ADVANCED TECHNOLOGIES, equip & supplies 418.96; BERENS MARKET, inmate groceries 1,656.64; BITUMINOUS PAVING, patching 35,613.20; BORNS GROUP, mailing expense 1,296.32; BRIAN'S GLASS & DOOR, repair & maint 97.26; CHS, diesel & ethanol 8,409.24; CITY OF MILBANK, utilities & prof services 697.69; CORRIE QUALE, repair & maint 185.00; CRAIG DEBOER, car wash card 28.56; JUSTIN DEVAAL, contracted proj 1,750.00; FLAT RATE, gravel 541.45; FOELL PC, health services 160.00; GRANT COUNTY LIBRARY, summer reading program 200.40; GRANT COUNTY REVIEW, publishing 2,332.37; GRANT-ROBERTS RURAL WATER, water usage 40.10; INGRAM, books 895.46; INTER-LAKES COMM ACTION, service worker 2,628.00; ITC, lib internet 134.94; JEFFREY SIKORA, prof services 1,000.00; JEREMY WIESE, equip 229.00; LEWIS FAMILY DRUG, inmate rx 66.28; LORIN LEHTOLA, contracted proj 82,200.77; MILBANK AUTO PARTS, supplies 746.50; MILBANK SCHOOL, allocation 23,200.84; MOMAR, supplies 520.23; MUNDWILER FUNERAL HOME, prof services 3,830.00; NORTHWESTERN ENERGY, natural gas 74.65; NOVAK SANITARY SERVICE, shredding services 248.94; OTTER TAIL POWER, electricity 2,452.35; OXYGEN SERVICE, supplies 151.82; QUICK PRO LUBE, repair & maint 383.47; R.D.
